

## Experiment 7

Que. 7- Using Google Drive or OneDrive:

- Create a new folder named “Unit 3 Practical Work”.
- Upload 3 different files (PDF, image, document).
- Organize them in subfolders: Notes, Images, Assignments.
- Share the main folder with your teacher with View Only permission.

The screenshot shows a Google Drive interface. On the left, there's a sidebar with links like Home, My Drive, Computers, Shared with me, Recent, Starred, Spam, Bin, and Storage. The main area shows a folder named "Unit 3 practical" under "My Drive". Inside this folder are three subfolders: "assignment", "image", and "notes". A search bar at the top says "Search in Drive". Below the search bar are filters for Type, People, Modified, and Source. At the bottom, it says "25.9 MB of 15.0 GB used" and "Get more storage".

The screenshot shows a "Share" dialog box. It has an input field containing the email address "firdaush.jahan@rungta.org" and a "Viewer" permission dropdown. Below these are two buttons: "Notify people" (with a checked checkbox) and a large message input field labeled "Message". At the bottom, there are "Cancel" and "Send" buttons, along with a "Send" button inside a blue rounded rectangle.
